

Coin-Operated Laundry Equipment

Denver Water will pay our commercial, industrial and institutional customers to purchase high efficiency coin-operated laundry equipment to replace old, non-efficient laundry equipment.

The Coin-Operated Laundry Equipment Rebate Program offers \$150 per machine purchased and installed. This rebate applies only to residential family sized washers. To receive a rebate, washers must meet Consortium for Energy Efficiency (CEE) standards for energy and water efficiency. For a complete list of approved washers, go to http://www.cee1.org/com/cwsh/comwash_specs.pdf

To apply for this rebate, the following is required.

1. Customer must receive treated water from Denver Water's system.
(See list of distributors on reverse side)
2. A purchase receipt for the new laundry equipment, dated between Jan. 1, 2006 – Dec. 31, 2006, must be provided.
3. Installation of the new qualifying washers must be complete.
4. Denver Water must verify old equipment and installation of new equipment.

If your property meets these conditions, complete this form and send it to:
